### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance to supplement the reasons for allowance in the Office actions mailed October 20, 2003:

The information disclosure statements submitted on May 3, 2004, and June 24, 2004, have been considered. The IDS filed June 24, 2004, duplicates many of the references cited on the IDS submitted May 3, 2004. In addition, several references had previously been considered and cited in prior actions and/or IDS.

In addition to the reasons set forth in the Office action mailed October 20, 2003, the instant claims are also distinguished over U.S. Pat. No. 5,456,819 (Lashmore et al.). US '819 discloses a method for electrodepositing metal on a substrate, wherein the substrate is immersed in the electroplating solution while a potential is applied. After immersion, the potential is changed to a deposition potential and the substrate is plated. However, US '819 neither teaches nor suggests ramping the current as the substrate is immersed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
